TOPICS FOR DISCUSSION WITH PEARSON STAFF

Shipping-

- In general, non-scorable shipment deadlines for larger districts are too short. It takes every day in the window to process all materials with an army of part-time help in order to meet the shipping deadline. Would it be possible, at least for larger districts, to get an extra couple of days added to the window?
- Shipping notifications either never arrive or come after shipments are received after reports arrive.
- Overage for all testing was very short in some districts. This caused the need for many additional orders.

Reports-

- Is the “List of Student Results” available anymore with TELPAS? If not, why not?
